

Earline stewart

Earline Stewart. A Californian transplanted to Texas. An avid horsewoman and quilter. Always willing to try something new. She instilled in her children generosity and self reliance. As a lover of genealogy, she patched together the lives of many people, and while cancer unraveled her own, she continued to live with determination, stubbornness and grit. Earline epitomized "self made". She passed at age 71 peacefully and without pain, August 24th 2014. A tree will be planted as her living memorial. She is remembered by her children, Victoria and Daniel, and by her sister Gloria.
