“ Ms Hollingsworth was my home room teacher AND chemistry teacher at Lamar High. She left a lasting impression on me as to her dedication to science and teaching as well as her absolute command of chemistry. I knew she had once worked at the Tennessee Oak Ridge nuclear project. I gladly took advantage of her major works chem class plus the voluntary extra hour class she offered one hour before home room met in the morning. She led by her excellent example. I retired recently as an emergency physician. I always think about how fortunate I was to have her as my teacher. She was a blessing. Charles J Neilson '64

FL

Yes - also for me, Homeroom and Chemistry. I thought of her today when I used an algebra trick she taught me.

“ Ms Hollingsworth is one of the main reasons I am a physician today. Her amazing enthusiasm was infectious! She taught me to love science. An extraordinary woman!
