“ I just found out two days ago that Michael is no longer with us. Now I know why I could not get in touch. I am so saddened and shocked. We shared many fun years working at Xerox together and catching up regarding our friends and family. He was very proud of his family and took no credit in their successes. I cannot believe you\u2019re gone Michael. \u2019ll miss the opportunity to see you in Florida, but will see you on the other side. \u2019ll miss our conversations together about food, family and sports!
