“ I am so very sorry for your loss. For several years prior to 2020, I travelled to Texas once a month and very much enjoyed getting together at the cafeteria lunch table with Noel and the rest of the McKinney lunch crew. Noel was so knowledgeable and passionate about his work. He told it like it was and I appreciated that about him. I work in the compliance group and my favorite memory of Noel was when he told me that although he liked me as a person, he did not care so much for the compliance group. We had a good laugh about that. May the wonderful memories you have with Noel remain in your heart forever. Sending love and prayers to the family.

“ I'm sad to hear about Noel's passing and I send my condolences. I worked with Noel at Raytheon. I have fond memories of working sometimes daily with him, and having lunch together every so often. He would wear Pink Floyd concert T-s from time to time to work, and if I saw him with one on, I would frequently comment to him on his good taste. He was a smart at his job and a good guy to work with.

yes thank you for sharing. Noel deserved a longer retirement after working so hard we had so many plans for what Noel called his after life. things will never be the same

“ I am very sorry for your loss. Noel was the kind of person you could rely on without hesitation — meticulous in his work, honest in his assessments, and committed to getting things right rather than just getting them done. What I appreciated most was his consistency. No drama, no shortcuts — just solid, thoughtful work and a quiet pride in doing things the right way. In a field where precision matters and pressure is constant, that kind of presence is rare.

“ My first time working with Noel was interesting, very guarded and kept to himself. The second time, when we got to know each other a little better, whole different person. It was always a great time learning from Noel and having the chance to call him for anything! You will be missed Noel! See you on the other side my friend!

Some people have the personality and ability to make work life more enjoyable. Noel was one of those persons. We made each other laugh about the daily news during coffee or lunch breaks at work. I'm sorry that he didn't get to enjoy a much longer retirement. He will be missed.

Tom - Noel did enjoy working surrounded by talented and creative fun people. he already missed everyone but was so looking forward to finishing his Garage Mahal and restoring his Classic Mustangs he saved all these years. i plan to finish his dreams to replace trees lost in recent storms, reading books he loved or authors many of you have given or shared with me already and finishing the restorations started including a 101 year old home we've owned for sometime. you did enrich his life so thank you for sharing.

Noel was the oldest of the 5 Burton kids, and being the oldest got him the nickname Bubba. We all looked up to Bubba growing up, for our own reasons I suppose. With me being the youngest of the kids, 8 years younger than Noel, he kind of looked after me a lot while we were growing up. When our parents started in the restaurant business and were working 12 to 14 hours a day, I was 10 years old Bubba became my parental figure, kept me inline the best he could. I wasn't a great kid but without his influence and guidance there's no telling how I would have ended up. As I grew up, he continued to be a positive influence on my life, and I thanked him many times for being there. The last time I was able to do that was in September when Susan and I were able to visit with him, Rhonda and Jet.

To say Bubba and I were close would be an understatement.

You will be missed my Brother.

With much love,

Aaron

Aaron. Noel loved being Bubba and you definitely held a special place in his heart forever plus one day. I'm very happy you left this memory and shared the special attention felt growing up from this great man He did as you said the best he could each day in his lifetime - he is missed, loved and has filled many of us who knew him with very fond memories Noel I built my whole world with you and will do my very best to carry on our dreams. Love you always my Hubby forever plus one day!

Professor Noel !! I enjoyed Noel as part of our pricing team in McKinney. Noel was the professor to our team and the teams he supported at Raytheon. Noel had such a way to express the right approach and invited others to the conversation as well. When Boeing asked "will Noel be there?" you know that represented the highest respect. You are missed. Signed John Finco.
